PRELIMINARY AMENDMENT

In response to the Final Rejection mailed January 28, 2002, a Request for Continued Examination and this Preliminary Amendment, and Supplemental Information Disclosure Statement have been filed.

IN THE CLAIMS

Please rewrite claims 1, 11, and 13 as set forth below in clean form.

1. (Twice Amended) A friction material with improved wear resistance and thermal conductivity, comprising:
- a functionally graded material including a composite material having heat and wear resistant fibers therein impregnated with a resin; and
 - a plurality of heat conducting elements situated within said functionally graded material in a selected orientation and spatial distribution with a varying concentration, wherein said functionally graded material is constructed for engagement with a cooperating movable member, said functionally graded material including a first friction surface constructed for
